Significant by the State Ministry of Education approved the economic and management class professional foundation courses, but also significant degree in the main course. After years of efforts at home and abroad statistics academic, professional terms of statistics of the course, has formed a theory of teaching, laboratory teaching, test bank and the separation of teaching, self-learning network complete teaching system. The statistics for non-professional students, who desire practical, simple, easy to understand and master the statistical materials are rare. Based on this consideration, we have prepared this material, designed to help non-statistics majors more easily grasp the basic theory and statistical methods to promote statistics and economics, management and other multi-disciplinary and cross-integration. The main characteristics of the materials: (1) the content inherited the essence of the original materials, attention to the development of new domestic and international statistical results, correctly handle the description of the relationship between statistics and inferential statistics, along the development of modern statistics the main line, the contents of the appropriate extension....
